**Text:**

Students are different from one country to another but they have one thing in common: they all hate exams. Students are generally afraid of getting bad marks because they don't want to fail. It is difficult for the candidate to concentrate on an exam when he is tense or nervous. He won't succeed if he is very anxious.

In order to help him face exams, psychologists and teachers suggest to the students to have a good night's sleep and to be as relaxed as possible while working through questions.
